

tion; shall we not improve it well? One hour now to speak plain truths to the people, is worth more than days, years ago; then the evils of Slavery were regarded

real. The nation is engaged in a murderous aggression on a neighbouring people, in order that slaveholders may still bear sway in its councils by accessions to their power, and that the weak may still be plundered with impunity. A vast territory (now free) is to be forced from Mexico by the horrors of war, and antited to this country for slavery to grow and latine upon forever—the fact is arming the people of the North, and there are

OLD COLONY A. S. SOCIETY.

A quarterly meeting of this society will be held in North Biscuitwater, on SATURDAY, the 29th SUNDAY, the 30th and MONDAY, the 31st, 1847, commencing at half past 9 o'clock, A. M., on each day.

We trust our friends in the Old Colony will so arrange matters, as to be present at the meeting. We hope to see a full and large collection on this occasion.

An interesting meeting is expected. The society will meet on Saturday in the Hall of Edward E. Bennett, at North Biscuitwater, and on Sunday and Monday offered to at the use of their house, in which to hold the Convention. Seekers from abroad will be present.

H. H. BRIGHAM, Secretary.

**NOTICE TO COLORED TRAVELLERS.**

J. P. COBURN informs his friends and acquaintances that he can accommodate them with board and lodging on reasonable terms. His house is situated on the corner of

Boutpath & Butolph Streets, Boston,

and is one of the most commodious and pleasant residences in the metropolis of the city, and he will go to any pains to make their situation comfortable, as he has everything convenient for that purpose.

CHS OF ENGLAND.—The population increases more rapidly than that of the United States; but, taking the three kinds of annual increase, deducting the annual increase of the United States, is 1.03 per cent. The population of the British Isles at this moment may be estimated at 45,000,000. In round numbers, at 28,500,000 in 1800, and 30,000,000 in 1820; and the corresponding to an annual increase of 1.03 per cent. being 68 years, it was 28,500,000 in 1820. It is now 45,000,000.

The statement, so often repeated in the year from midsummer, that the population of the United Kingdom increases by 1,000 a day, is an error, which arises from using the annual rate of increase (1.8 per cent.) instead of the daily rate (0.005 per cent.). At the present time it is probable that the population of the United Kingdom is added to the population daily, by the birth of 1,058 babies, and the death of 58 persons. The United Kingdom keeps do-
